ICEF 3979 BASIC HEALTH/MCW UAR (EGYPT)

ICEF 3979/HOLTON/61 - Children of Qalyub

The Ministry of Health in United Arab Republic (Egypt), with international aid, is attempting to strengthen and expand its rural health services, established in 1942. Additional rural centres will provide, in addition to health-centre services, school health and out-patients clinics, in-patient departments, sanitary and hygiene services, preventive health services and ambulance services. The United Nations Children's Fund (UNICEF) has provided basic equipment, midwifery kits, public health nurse equipment, drugs and diet supplements to the centres. The World Health Organisation (WHO) gives technical advice.
